What kind of life is this! All the animals in the jungle are more powerful than us.

How long can we stay like this? Even if a leaf falls from the tree, we get scared. It is better to die than to always live in fear.

This is true. We are living a life full of fear and anxieties. Better we commit suicide.

You are correct. However, we can not commit suicide. How will we explain the suicide to God?
iskcondesiretree.com

We will question God as to why he made us suck weak and fearful animals.

Wow! They got so scared of us.
Poor fellows!
We are not the weakest.
Hence, we should not become depressed and commit suicide.

All were happy….
We are not the only ones. We are stronger than so many creatures.
We should thank God. We must live!
Yes we must live!
